POSSL GROUP

Rights reserved concerning technical specifications and errors. Please note that illustrations in this brochure may contain decorations, alternative designs or special equipment that are not included in the scope of delivery or for which additional charges may be incurred. All dimensions in millimetres, unless otherwise indicated. Minor deviations in colour may result due to the printing process. Prices include the currently applicable statutory value added tax. Update 08/2023

\*According to EC Directive 97/27 EC and EU standard EN 1645-2, the "mass in running order" comprises the unladen weight of the vehicle, incl. driver (75 kg) and filled fuel tank, as well as the following basic equipment: water tank with reduced volume (20 l), a filled aluminium gas cylinder (15 kg) and a cable reel (4 kg). The technically permissible gross vehicle weight must not be exceeded when the personal equipment, persons travelling with the vehicle and any optional extras are taken into account. The installation of special accessories will reduce the maximum recommended load and may reduce the permitted number of persons. The information on the scope of delivery, appearance, performance, dimensions and weight of the vehicles corresponds to the knowledge available at the time of going to press, and the European homologation regulations. These can change up until the time the vehicle is purchased or until delivery. Deviations within the factory tolerances (+/- 5% max.) are possible and permissible.
